# GREAT WAS THE CHRISTMAS **RUSH IN STORES**

Of Wheeling Saturday Night-From All Points of the Compass.

#### COME THE HOLIDAY SHOPPERS.

More Interviews With Merchans, Who Say Trade Is Very Satisfactory.

Seldom has there been such a tre mendous rush of holiday shoppers as ues, present or prospective.

thronged the retail district of this city
on Saturday, especially in the evening, when in spite of the fact that the cler ical force in all the stores has been augmented, the purchasers of Christmas presents could hardly be accommodated. Yesterday was a day of relaxation for the business men and their overworked clerks, and the counte nances of the former were wreathed in smiles over the splendid business done

Interviews with merchants elicited the fact that they were all doing their share of the holiday business, and no one complained. There remains but one more day, and as is usually the ease the day before Christmas will likely eclipse all other days. Saturday banner day, nearly all the mills and factories paying their employes, and they circulated through the shop ping districts in droves and spent ney freely. The fact that the better class of merchandise is having the call this year more than ever before is ar indication that there is plenty of money and everybody is employed. Clement Hess, of Hess & Sons, said

the holiday business was satisfactory in every respect and fully as good as last year, which was the best in the history of the business "The people are purchasing a better class of goods, and money seems plentiful."

Robert Nesbitt, of Nesbitt & Bro.-"Holiday trade appears to be better than last year, and wil lequal the best year we ever had. The people are buying a better class of goods, a fact which indicates that they have more money to spend than ever before."

Lou Gundling, of Gundling & Co.-

"Our holiday business is very satisfactory, and we have no complaint to make. It is fully up to what it was last year, and that makes it as good as any year in the business." Lee Baer-'Business is satisfactory

in every way, in fact more so, as our sales are about 25 per cent, above what they were last year. Business ever since the election has been good, and this is the best year we ever had."

Frank Foster, of Foster & Watkins-"Business has been satisfactory, and I can see no reason for complaining I has been good throughout the year, and the same holds good as to the holiday

Prof. H. Sheff, of Sheff Bros .- "Busi ness is more than satisfactory, and think we are doing more than our chare. It is up to last year, and that is to say it is as good as any year in

C. W. Alexander-"This year's business is the biggest we have ever had. The holiday trade is exceptionally satisfactory. People are spending their money freely, and they apear to have plenty of it."

# FINANCIAL AND COMMERCIAL. STOCK MARKET RAN WILD.

scribed otherwise than as speculative orgies. Individual considerations that might attach to special stocks and effect their value were apparently taken no account of and there was a wild scramble to buy all sorts and conditions of stocks, as though all future hopes of wealth and prosperity depended on an ownership of stocks before Christmas. There was no news of importance to put any new phase on the question of val-

ment of the imposing rise in prices during the week and the apparently undiminished confidence manifested by large capitalists by their continued large absorption of securities. At the fall of the hammer on the chairman's desk this morning 16,000 shares of Northern Pacific were instantly bought in a single block. First transactions in a number of other important stocks ranged from 1,000 shares up to 7,200 shares. With a gigantic Christmas tree, decked with glittering ornaments and festoons of Christmas greens and bunting waving over the floor of the exchange, the brokers bought stocks with as much abandon as though it were a part of the Christmas celebration, and the salety of the occasion depended upon it. The the occasion depended upon it. The market apparently ran wild, and was

tended list of stocks from 1 to 2 points.

Only general conditions and causes can afford adequate explanation for such a stock market as that of the past week. Particular events and developments may be accepted as stimulating causes, or as unlocking nascent forces that have a latent growth and gestation, and need but a slight impulse to bring them into life. That impulse came from last Saturdny's statement. Ever since that time the market has shown continuous animation and variety. The opinion has been universal in Wall street that a rise in prices would come in January, after the yearly financial settlements had been concluded and the funds disbursed and dividends and interest were seeking reinvestment, but there was great dread of a squeeze of money rates at the end of the year, as the resulterenests to be met are the large.

Interest were seeking reinvestment, but there was great dread of a squeeze of money rates at the end of the year, as the requirements to be met are the largest eye known in our history.

The railroad bond market has been actuated by sympathy with the stock market. The lower grade issues have been the favorites, and have moved strongly upwards, with occasional reactions from speculative profit-taking.

United States refunding 2's advanced ½ per cent; old 4's and 5's ¼ per cent and 3's registered ½ per cent. The new 4's declined ¼ per cent below the ruling call price of a week ago.

#### Metals.

NEW YORK-Conditions in the local metal markets were practically un-changed and almost entirely of a holiday character. General sentiment, how ever, had a bearish average. Buyers ever, had a bearish average. Buyers and sellers were holding aloof until after the approaching holdays.
